Why are my points for surveys and/or offers not crediting?

CreationsRewards only issues points for surveys and offers that our merchant reports display as having been completed. As long as you have qualified for and completed a survey in full, or have fulfilled the requirements of the offer you registered at, your account should be credited within 96 hours.

If you are not credited within this timeframe, we have no report that you have completed the transaction and cannot issue points to you. Also, for offers, if you previously registered for the offer elsewhere you cannot register again at CreationsRewards for credit a second time. Lastly, make sure your browser has cookies enabled and that you are not using "ad blocking" tools on your computer. Blocking cookies and ads will cause crediting issues to occur.

Shopping points credit automatically to member accounts within 14 days after your order was shipped. To ensure proper crediting, you must use our links to visit the merchant website. If you use a coupon code, this may invalidate your credit from us as coupons sometimes are unique to a particular website.

If after 14 days of receiving your order you are still not credited, submit your order information on the Research Inquiry Form. If we are manually credited by the merchant for the purchase, we will credit your account.

Points are not awarded on shipping, tax, other fees, etc. Coupons used may reduce your subtotal qualifying credit or disqualify you from credit depending on the merchant. Gift card purchases are not awarded unless made under the "Gift Certificates" category. Gift cards used on your purchases are deducted from the Subtotal value of your purchase.

Can I use a different E-Mail address for offers?

Yes, you can use an alternate E-Mail address that you use. We track and credit account transactions by a unique ID code which is not associated with your E-Mail address used when visiting the merchant website.

Why don't I qualify for a survey?

Each survey invite has its specific criteria to determine which members will be accepted. Sometimes, a survey is looking for someone who uses a certain product, or maybe a survey is looking only for consumers who watched a certain television show, as an example.

For our daily survey offers, there are hundreds of surveys available at any given moment. Depending on the criteria the research company is looking for, such as age groups, ethnicity, etc., you may not always qualify for a survey and this is normal.

For our Daily Surveys, if you do not qualify on your first attempt, visit the survey site again in a few hours as new surveys are always being added for which you may qualify.

I can't access/open the surveys.

If you are receiving a specific error message, read the error to see if it explains exactly why you are unable to open the survey page. If the page appears "stuck" when you submit your data, the survey site may be experiencing a temporary issue, or your browser may not be setup properly.

We recommend that you use Internet Explorer 7.0 or higher, or Firefox 2.0 or higher with cookies set to Accept All. Do not run any "ad-blocking" tools while using the surveys since this can interfere with how the websites behave and can even prevent your account from being credited in some cases.

Why are my points for surveys and/or offers not crediting?

CreationsRewards only issues points for surveys and offers that our merchant reports display as having been completed. As long as you have qualified for and completed a survey in full, or have fulfilled the requirements of the offer you registered at, your account should be credited within 96 hours.

If you are not credited within this timeframe, we have no report that you have completed the transaction and cannot issue points to you. For our Daily Surveys, you can report missing credit through the Inquiry Tool located at:
http://www.creationsrewards.net/a/research_s.asp

I completed a survey but wasn't taken back to CreationsRewards.

Depending of the survey you have completed, you may not be sent back to CreationsRewards. There is no need to worry, as long as you completed the survey in full and it was a qualified survey, your account will be credited within 96 hours. If after 5 days you are not credited, submit a Survey Inquiry to us.

Someone else in our house wants to take surveys. Is this allowed?

Another person in your household can take a survey only if a survey specifically asks someone else in your home to take the survey. In most cases, your account is for your usage only and we do not recommend having other people attempt offers and/or surveys from it since it can trigger a fraud activity alert that can result in account suspension.
